VISITOR GUIDE WISCONSIN STATE PARK SYSTEM

**WHEN YOU'RE HAVING FUN,
WE'RE HAVING FUN.**

Admission, Reservations and General Information

Welcome to the Wisconsin State Park System!

DNR PHOTO

Dear Visitor,

As Governor, I am proud to welcome you to enjoy one of Wisconsin's most treasured resources – our state park system.

Wisconsin is lucky to have a wealth of great natural beauty and explorable surroundings. I am proud of our state's tradition that dates back more than a century of preserving natural areas through the Wisconsin State Park System. We've balanced public access with resource conservation and created a park system that today stands as one of the finest in the nation.

We're proud that our incredible parks, forests, trails and recreation areas provide endless opportunities for families to camp, hike, swim or simply relax in Wisconsin's great outdoors – which over 17 million visitors do each year. My wife Kathy and I are very fond of Wisconsin's parks. With more than 100 locations throughout the state, access to Wisconsin's natural spaces is always close at hand.

Use this guide to plan your next outdoor experience. We are excited to host your adventure. Thank you for traveling Wisconsin!

Sincerely,

Tony Evers
Governor

Vehicle Admission Stickers*

A vehicle admission sticker is required on all motor vehicles stopping in state park properties. You can purchase either an annual sticker, for admission to all state park properties for the calendar year; or a daily sticker, valid only on the date of issue. Annual admission sticker rates include Wisconsin registration plates – \$28; WI Senior Citizen (65 and older) with Wisconsin registration plates – \$13; registration plates from other states – \$38. Daily admission sticker rates may vary. Please see wiparks.net for current admission sticker rates.

State Trail Pass*

A state trail pass is required for all individuals age 16 or older who are biking, horseback riding, in-line skating or cross-country skiing on certain designated trails. A trail pass is not required for hiking or walking. An annual state trail pass costs \$25; a daily pass is \$5. A dollar sign (\$) next to the trail mileage on the chart in this brochure indicates trails that require the pass.

Camping Reservations*

Reservations are available for outdoor family, group and backpack campsites by visiting our website wiparks.net or by calling our toll-free reservation number 888-WI-PARKS (888-947-2757). Campers may make site-specific reservations up to 11 months in advance. A non-refundable reservation fee will be charged in addition to camping rates. Please have your major credit card ready. Campsites may be available at some properties on a first-come, first-served basis.

Thank you for supporting the Wisconsin State Park System. Sales of vehicle admission stickers, camping fees and state trail passes go directly to support the operation of Wisconsin state parks, forests, recreation areas and trails.

The rates for campsites in the Wisconsin State Park System vary and are based on any or all of the following: residency, electricity, amenities, occupancy levels, geographic location, campsite type, uniqueness of camping experience and seasonality. Please see the Wisconsin State Park System reservation website, found at wiparks.net, and select your camping location and the dates of your stay for current camping rates.

Check-in and Occupancy Rule

Campsite check-in/check-out time is 3 p.m. All campers must register when they arrive at the property. Campers who do not check in and occupy their reserved site before 3 p.m. the day after the scheduled arrival date will forfeit the site.

Firewood Rule

Wisconsin has rules about transporting firewood – for the latest details, go to dnr.wi.gov and search “firewood”. These rules are intended to stop the spread of forest pests and diseases that are transported in firewood. Firewood from sources approved by the Department of Agriculture, Trade and Consumer Protection is allowable. Wood that does not meet these criteria may be confiscated and destroyed. The person possessing such firewood may be subject to a citation.

For Your Safety

Outdoor recreational opportunities and conditions vary greatly from park to park. Information specific to each property is available in park offices and park publications, and posted in public areas. Enjoy your visit to Wisconsin State Parks – please be safe, be careful and act responsibly.

*All rates are subject to change.

Carry in – Carry out

In an effort to reduce, reuse and recycle, visitors to our picnic areas, shelters, beaches and other day-use areas are encouraged to pack reusable items and required to take garbage and recyclables home. It's good for us and it's good for our earth.

Pets

Pets are welcome in most Wisconsin state parks, forests, recreation areas and trails when on a leash and under control. For the protection of wildlife and visitors, pets are not allowed in picnic areas, buildings, swimming beaches or on nature trails. Pets may not be left unattended at any time. Other restrictions may apply. Please check the property office for more information.

FWSP and Friends Groups

More than 80 local Friends Groups around the state provide volunteer help, raise funds, and host events at state park properties. The umbrella organization, Friends of Wisconsin State Parks (FWSP) supports these local groups and raises funds for state park system enhancement and preservation. For more information, visit FWSP.org or call 608-294-0810.

Nature Programs

Many Wisconsin state park properties have nature centers with exhibits on the natural and cultural history of the region, and may offer guided nature hikes, self-guided nature trails, informal campfire programs, special events and guest speakers.

The Wisconsin Explorer program, for children ages 3-11, helps families explore the outdoors together while enjoying nature activities, scavenger hunts, games, hikes and crafts. Participants complete requirements and earn collectible patches.

Hunting and Trapping

Hunting and trapping is allowed at most properties. For more information, please refer to Wisconsin DNR hunting regulations or visit dnr.wi.gov and search "hunting state parks".

Accessible to All

Many people with disabilities explore and enjoy Wisconsin state parks, forests, recreation areas and trails. Most picnic areas, park offices and toilet/shower buildings are accessible. Nearly all campgrounds have accessible campsites.

For people unable to use these sites, there are fully accessible cabins at Buckhorn, Harrington Beach, High Cliff, Kohler-Andrae, Mirror Lake and Potawatomi state parks, at Ottawa Lake in the Kettle Moraine State Forest-Southern Unit, and at Richard Bong State Recreation Area. There are smaller rustic accessible cabins at Blue Mound and Copper Falls state parks. Cabins are available May-October, by reservation only. For more information, ask at the park, or see dnr.wi.gov and search "cabin".

Volunteers

If you like to spend time in the outdoors, interact with and help other outdoor enthusiasts, and you care about protecting our natural resources, then Wisconsin State Parks needs you! Volunteers are needed for visitor services, special projects and events, property maintenance, trail work and more. Invite your friends and family members to join you in the outdoors for a fun volunteer work day, or spend an extended stay at one of our beautiful properties and serve as a host for a campground or nature center. For more information, see dnr.wi.gov and search "volunteer state parks".

The Ice Age National Scenic Trail winds through Wisconsin for more than 1,000 miles following the edge of the last continental glacier. The trail connects hikers to some of Wisconsin's most scenic landscapes and helps tell the story of the last Ice Age by highlighting the state's unique glacial features. There are hundreds of trailheads and access points located along the trail route. More than 600 miles of trail are open and the completed sections of trail are connected by less-traveled roadways and other temporary routes. Several State Ice Age Trail Areas have been purchased to permanently protect lands for the Ice Age Trail. These properties provide opportunities for low impact public recreation such as hiking, backpacking and snowshoeing while protecting the natural, cultural and scenic character for the Ice Age Trail corridor. For more information, contact the Ice Age Trail Alliance at 800-227-0046 or visit iceagetrail.org.

As a State, we are committed to preserving our family fun environment, both now and for generations to come.

Wisconsin's diverse and beautiful natural resources – the scenic lakes, streams, bluffs, forests, prairies and the wildlife that inhabit them, give visitors many reasons to experience Wisconsin again and again.

Travel Green Wisconsin is a certification program designed to help organizations implement practical yet comprehensive responsible tourism practices so the cherished experiences visitors to the Wisconsin State Park system seek – respect, adoration and oneness with nature remain pristine. Leading the way are many of the parks, trails, forests and recreation areas listed in this publication. All Wisconsin State Parks are Travel Green Wisconsin certified.

Protecting and preserving our most treasured assets requires the help of everyone who loves Wisconsin, and many businesses are making changes to help do their part. We invite you to join us in celebrating their commitment. Look for the Travel Green Wisconsin seal in this guide, online and as you're out and about traveling green in Wisconsin.
